Welcome to Home Logic – the parent/student portal to student information

Dear Parent/Guardian:

To improve communication between school and parent/guardians our school is using a parent portal called “HomeLogic”. This online environment allows parents/guardians to check their child’s academic progress throughout the school year. The following information can be viewed about your child: **attendance, schedule, transcript, grades, and demographics.**

For now, information provided to you from our Student Information System will be in a Read-only format. However, each page has the school phone number posted. Please contact the school with any changes you would like to communicate with the school. Please visit this website and click on the “New User?” prompt to create an account.

HomeLogic website: <https://sirswebapps.cbe.ab.ca/HomeLogic>

Please note, for the security of your child(ren)’s information, you will need to be registered with the school as a parent/guardian who receives mail in order to create a valid account.** If you have trouble creating an account, please call the school.

As this application will take some time to understand, we thank you in advance for your patience while we implement this new approach.

If you have questions about HomeLogic, or have difficulty with your account, please contact the school at (403) 289-2551.

Thank you,

Mr. Jacques Ferguson, Principal
