

CALGARY FIRE CADET PROGRAM

Would you like to cut apart cars with the Jaws of Life or perform search and rescue operations and climb up 100-foot aerial ladder trucks?

The Calgary Fire Cadet program gives high school students a chance to learn and build values, such as: teamwork, community involvement, leadership, pride, professionalism, and respect through a Firefighting medium. If you are enthusiastic, team-oriented, and like hands-on activities – you will enjoy this program.
