### Medicals

It is highly recommended that all athletes have a medical prior to the start of the season. Book an appointment prior to the start of school.

### Commitment

Students are expected to make a commitment to both football and academics. High School Athletics are competitive and demanding activities. It is important that players plan their daily schedule to balance both academic demands and athletic commitments. We believe strongly in the importance of all our athletes in committing to a routine that will enable their success in classes. This requires daily review of course work, completion of homework and assignments in the evenings, and attendance at tutorials in the mornings.

The football season is short and intense. **Students are expected to attend all practices and games.** Practices are every day after school for approximately 2 1/2 hours. If any conflicts occur, student athletes must talk to the **Head Coach** prior to the expected conflict. **Students who do not attend practices regularly will be released from the team.**

### Code of Conduct

Students are expected to meet the expectations of the Code of Conduct as outlined in the student handbook provided to all students at the beginning of the school year. Any student-athlete who violates any part of the code of conduct will be subject to disciplinary action that could result in their removal from the team.
